

# TI HealthTech

Engineering components for life.

## Visit TI's HealthTech Experts in the Health & Fitness Zone at the TI Village during 2013 CES and learn how TI is Engineering the Future of Health & Fitness Technologies

From heart rate monitors and body composition meters to pulse oximetry, TI HealthTech offers a broad range of analog, embedded processing and wireless semiconductor components for your Health & Fitness system designs.

See how we are Engineering the Future of Health & Fitness, by viewing our technology demonstrations in the Health & Fitness zone at the TI Village, North Hall, N116/N117 and talk to our experts about:

- Precision analog and power management
- Connectivity and Wireless Connectivity: USB, Wi-Fi™, ZigBee®
- ANT™, Bluetooth®, Bluetooth® Low-Energy (BLE), ZigBee®, RFID, etc.
- Ultra-low power microcontrollers and embedded processors

While at CES, stop in and hear Karthik Vasanth discuss *Silicon Gangnam Style!* on January 8, 2013, 4pm during the Digital Health Summit, Room N250.
